WHO: Students and anyone who are interested!

WHAT: Vedic Mathematics is an ancient system of mathematics originated in India. Sankracharya Sri Bharati Krishna Tirthaji Maharaja rediscovered Vedic Mathematics between 1911 and 1918. With the Vedic system one can solve difficult problems and huge sums immediately. In fact, Vedic Mathematics has formulae and techniques for almost every field of Mathematics. The entire Vedic Mathematics system consists of hundreds of tricks that students can use throughout their educational career.

SPEAKER: Since 1982 Ravi Kumar has been traveling in Asia Pacific regions of Burma, Thailand, Malaysia, Singapore, Hong Kong, Taiwan, Japan, Indonesia, Australia, Fiji, New Zealand, Sri Lanka and Gulf Countries.

In these countries and in Mauritius, South Africa, USA, UK and Canada Ravi Kumar has conducted over 100 workshops on Vedic Mathematics and Vedic Science in Universities, Research Institutes, Schools and social organizations.
