General: The Health and Human Services Committee will continue with community oriented Health and Human Services programs. Due to Prana Pratishta and vibrant activities at BT, getting hall is hard and we are now resuming our programs. The program below has implications to all, as we age seeking help in hearing &/or vision areas Kindly inform your friends and others that could benefit from this HHS program. If you personally want to help our community thru HHS and want come on board please let chair know promptly. If your professional interests gravitate to a focussed presentation, do inform and we will try to accommodate. HHS is striving to get support groups developed for families with “disabilities”, life threatening issues etc. In HHS programs, we usually have many language speakers that will help with issues when translation help is needed.

Check the Home page [www.b-temple.org](http://www.b-temple.org) and follow the link to HHS activities.
